DOGGY DAYCARE

Have you ever worked long hours and come home tired? You then are greeted by your loyal fur companion. The sometimes sad, yet joyful reality is we are their world. They look to us as a job. They just want to love and protect us. Dogs need excitement, joy, exercise, and companionship. Here we provide the amenities to accommodate both you and your pet.

We believe play is for everyone. Using toys, games, and treats encouraging pets to play. Certain clients/pets who request for a playmate or two. We will assign an approved paw pal(s). Our dogs that stay with us, are on a rotating schedule set for the day. This ensures inside and outside time. Dogs are always given plenty of love and movement.

Kennels although helpful in a home-setting, can not allow for proper movement. Personal areas are provided to give pets space to feel comfortable. Happy Hut is a 12 by 5 foot suite, intended for short stays. Times square, a 10 by 10 foot playroom is used for play and toy time. We also have 4 by 3 foot beds, cozy cone and snug bug, which are for nap time. Daycare and boarding also get use of our training floor, which is 24ft by 24ft. We also have our outdoor space which is a very good size, as a potty place. All areas are clean and sanitized between dogs to ensure cleanliness.

that is a necessity.

“No dog-to-dog contact” rules are in place to prioritize safety and immune concerns. Anyone can request or join us with a play pal, but they have to be approved. Those who don’t have a fur friend will be given lots of attention and affection. All pets need to be both pet and human friendly. Even though there is “no dog-to-dog contact”, we ask for safety reasons. There is a lot of human contact so

Pups are pottied regularly to develop healthy habits. Indoor and outdoor spaces are periodically cleaned and sanitized. Bed and/or bedding, toys, and personal chewies are provided. They will be washed if soiled and at the end of day. If you'd like to bring your own we welcome you to. We encourage you to wash daily even when it appears clean. Shots, vaccines, and routine vet visits need to be current. In order to keep our pets and environment healthy.
